Pressure Regulation

RAIN BIRD'S PERFECT PAIR SOLUTION

Rain Bird offers three perfectly paired combinations of PRS spray bodies and high efficiency nozzles:

1. SAM-PRS-30 + U-SERIES SPRAY NOZZLES
2. SAM-PRS-30 + HE-VAN SPRAY NOZZLES
3. SAM-PRS-45 + R-VAN ROTARY NOZZLES

RAIN BIRD WATERSENSE CERTIFIED SOLUTIONS

Throughout our product lineup, Rain Bird offers select models that meet the standards for WaterSense certification. Look for these products and set your business up for success as regulations continue to evolve.

for more information, visit
<https://www.rainbird.com/prs>

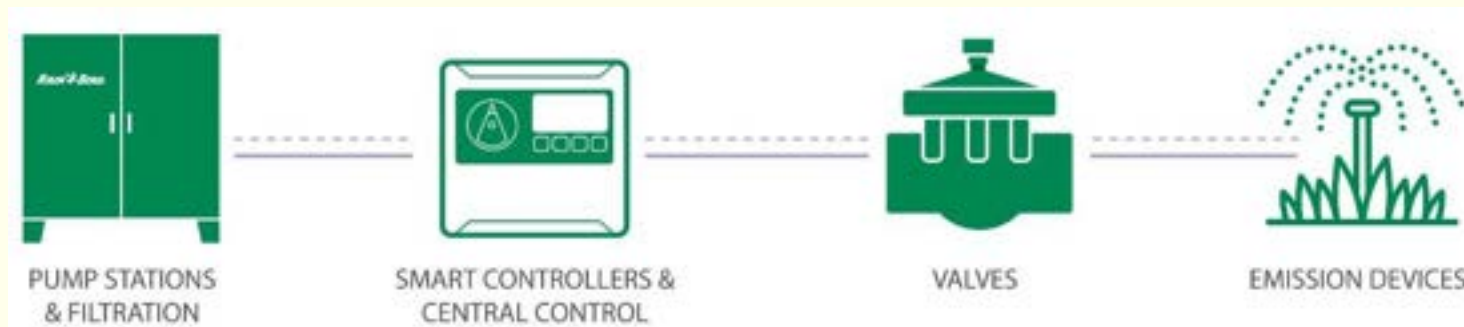

Reclaimed Water

Only Rain Bird offers end-to-end solutions for reclaimed water applications.

For over 90 years Rain Bird has been an advocate for the Intelligent Use of Water™, leading the way in developing end-to-end solutions that help you get more from every drop of water.

Rain Bird's reclaimed water products provide everything you need to deliver ultimate performance in harsh conditions.

5 Ways to Save Water

Responsible Irrigation Starts Here

Rain Bird's commitment to The Intelligent Use of Water™ extends beyond our products.

Today, we partner with contractors, designers and municipalities to provide solutions, education, and training to help achieve near-term and long-term water resource management goals.

Tree Health

Rain Bird Offers Three Essential Tools for Tree Health

Have you seen the docuseries? The TREE STORIES docuseries, presented by Rain Bird, explores iconic trees across the United States. Elliott Bambrough is a storyteller who travels the country highlighting the importance of tree health. The critical importance of trees is why Rain Bird offers a wide range of products to keep them thriving in every environment.

PRODUCTS

Rotors

11000 Series

Engineered for Sports Fields and Large Turf Applications

For more product information, please visit:

rainbird.com/products/11000-series

The Rain Bird 11000 Rotor is designed for use on sports fields and large turf applications. Providing excellent distribution uniformity over a full 32 m radius, this rotor is ideal for sports fields & reduces the number of heads required.

Proven Performance – Born from golf but optimized for sports fields; the 11000 Series Rotor brings 35+ years of dependable performance into the stadium.

Top Serviceability – Smaller footprint, snap ring design for quick access to serviceable components

Sustainability – Irrigate a field 25% larger with 40% fewer rotors

Optional opposing nozzle available

5000+ Series

Green Looks Good on You!

For more product information, please visit:

rainbird.com/products/5000-series

Built from top to bottom with the contractor in mind, the Rain Bird 5000 Series product line is the durable, reliable rotor for residential and commercial applications.

Turn the rotor on/off at the head for easier maintenance

Flush zone and nozzle rotor without going back and forth to a valve or controller

Troubleshoot for leaks by turning off all the heads in that zone

Spray Nozzles

R-VAN Rotary Nozzles

Uniform Coverage.
Matched Precipitation Rates.

R-VAN provides a full line of high-performance rotary nozzles engineered to deliver the most efficient coverage while offering installation and maintenance that's faster and easier than any other rotary nozzle on the market.

Complete line of rotary nozzles from 2.4-7.3 m including side strip SKUs

Matched precipitation rate at 16 mm/Hr across all SKUs

Tool-free adjustments

Three-year trade warranty

For more product information, please visit:

www.rainbird.com/rvan

R-VAN Rotary Nozzles

Matched Precipitation Rate

Less valves, less zones—one simple solution

Larger Stream

Cuts through wind to keep water in target zone

Maximum Convenience

Adjust spray pattern, distance, angle, and flush by hand, no tools required

Distribution Uniformity

Uniform coverage with no dry or soggy areas

Highly Efficient

Shorter zone run times save water and energy

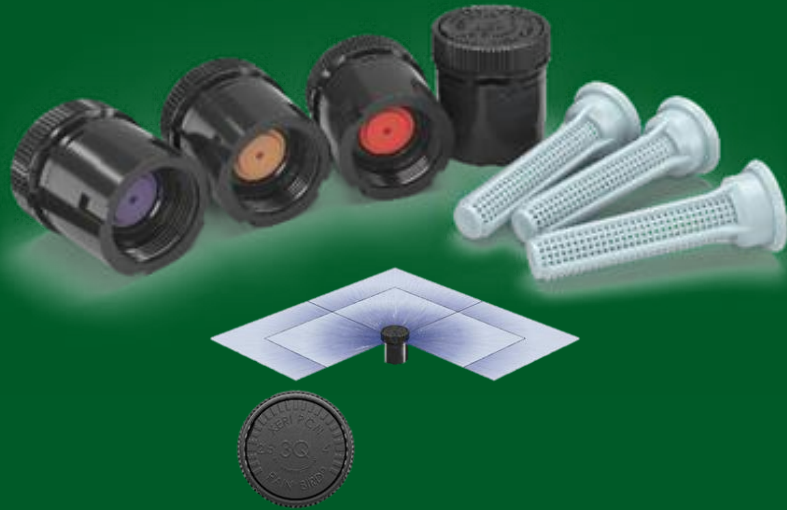

Do More With Less

Fewer nozzles means lower inventory costs

SQ Series Square Pattern Nozzles

Precise and efficient, low-volume spray nozzle for irrigation in small areas

For more product information, please visit:

rainbird.com/products/sq-series-square-pattern-nozzles

The SQ Series is the most efficient, low-volume spray solution for precision irrigation of small areas. The square spray pattern and pressure compensation offers increased efficiency and control, reducing overspray, property damage and liability.

Perfect for small areas - Use for difficult corners in narrow planting beds, parking lot islands, walkways, parkways, street medians, and around trees and shrubs

Water Saving - Meets micro irrigation system requirement with less than 98 l/Hr flow rate at 2 Bar

Fewer Nozzles Needed - Unique square pattern with edge-to-edge capability reduces need for overlap decreasing cost and installation time

Simplify designs and installations - Square patterns create flexibility for use in a variety of applications

Dripline and Fittings

PCD Pressure Compensating Dripline

Available Now

For more product information, please visit:

<https://www.rainbird.com/products/pcd-pressure-compensating-dripline>

Rain Bird PCD Dripline is pressure compensated allowing uniform flow throughout the zone. It accepts Rain Bird XFF Dripline Insert Fittings or BF Lock Compression Fittings.

2.3 l/Hr – 33 cm spacing - 100 m coils

The self-flushing PCD emitter quickly clears grit and debris assuring an uninterrupted supply of water

The pressure-compensating emitter design provides a consistent flow over the entire lateral length - **increased reliability in the pressure range of 0.58 to 4.14 bar**

Dual-layered tubing (brown over black) provides unmatched **resistance to chemicals, UV damage and algae growth**

Laser etched information on the tube and emitter holes are easily found

XFF Fittings

Reduce hand fatigue, save time, and money with XF Dripline Insert Fittings

For more product information, please visit:

rainbird.com/products/xf-dripline-insert-fittings

Rain Bird® XFF barbed insert fittings are used with all Rain Bird XF Series Dripline, including Dripline and XFS Subsurface Dripline. They have been redesigned and can now be installed over twice as fast as other barbed fittings.

Complete line of 17mm insert fittings to simplify installation of XF Series Dripline

Use with **XF Insertion Tool** for even faster installation

High quality barbs grab tubing for a secure fit

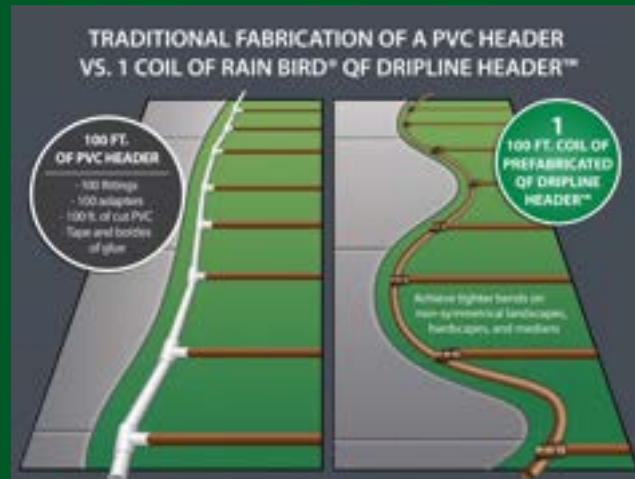

Unique barb design to reduce insertion force and still retain a secure fit

XFF Fittings

QF Dripline Header

A Quick and Flexible Solution to Dripline Headers

Rain Bird® QF Dripline Header is a patent pending product that is the landscape industry's first pre-fabricated header for dripline installations. Save time and money by eliminating the need for measuring, cutting, gluing and taping.

TIME SAVINGS – One Coil Saves 3 ½+ Hours of Labour

ADAPTABLE – Flexible coil and rotating elbows are Ideal for any landscape design

UNIVERSAL – Works with Rain Bird XF Series Dripline and all other manufacturers

RELIABLE – Robust and Durable, withstands harsh conditions

For more product information, please visit:
rainbird.com/products/qf-dripline-header

RC2

Smarter From The Inside.

For more product information, please visit:
rainbird.com/products/new-rc2-controller

The Complete Smart Control Solution

With the NEW Rain Bird RC2 Smart Irrigation Control Solution you can confidently manage your system from anywhere.

Quick pair technology – securely pairs controllers to your phone or

Wireless access point – great for job sites without WiFi access to finish setting programs.

Schedule templates - quickly load commonly used programs instead manually setting them

Save Time & Water - Real-time weather data is sent to the controller and then automatically adjusts schedules to avoid over watering.

ESP-TM2

Simple, Flexible and Reliable for Residential Applications

Use this controller with LNK2 WiFi and WR2 Rain Sensor

The ESP-TM2 irrigation controller is the perfect option for basic residential solutions. Building upon Rain Bird's legacy of The Intelligent Use of Water®, this controller offers simple water saving features that you will actually use.

WiFi Ready! Compatible with the Rain Bird LNK2 WiFi Module

Simple to Program – with Rain Bird's Extra Simple Programming interface or utilizing the FREE Rain Bird controller app

Quick to Install – suitable for indoor or outdoor installations

Available in 4, 6, 8, and 12 station indoor and outdoor models

For more product information, please visit:

rainbird.com/products/esp-tm2-series-controllers

ESP-ME3

Advanced Residential Irrigation Control

For more product information, please visit:

rainbird.com/products/esp-me3-series-controllers

The ESP-ME3 builds on the station modularity and easy programming of the ESP-Me WiFi ready controller and adds flow sensor compatibility for accessible, reliable system control.

Simple to Use - Reduced dial positions and a back-lit screen make programming easy to understand and

Flexible Installation - Indoor or outdoor use and expandable up to 22 stations

Powerful Accessories - Smart weather adjustments and flow monitoring available through the LNK2™ WiFi module and a wired flow sensor

Built for Professionals - Weather-resistant locking door

ESP-LXME2/Pro

Next Generation in Control for Traditionally Wired Irrigation Systems

The popular Rain Bird LXME Series commercial controllers have been upgraded now offering 40 programs, a large backlit LCD screen, and simplified programming.

Modular Design - station capacity from 12 to 48 stations

Scheduling Flexibility - 40 programs & 10 start-times

Remote Accessibility - IQ & LNK2 Wi-Fi Module support for Apple IOS (*Android Coming Soon*)

Advanced Flow Management - FloWatch™, FloManager™, SimulStations™, Cycle+Soak™, and more.

Simplified User Interface – Large backlit display, easy language changes, Info button

For more product information, please visit:

rainbird.com/products/esp-lxme2-esp-lxme2-pro-modular-controllers

ESP-LXME2P (Pro)

PRO Models only

- PRO features can be accessed by installing the LXME2 PRO Controller or by replacing the LXME2 base module with a PRO Smart Module (PSM-LXME2)
- FloWatch™ protection for high and low flow conditions with user defined reactions
- Flow sensing capability (1 input)
- Learn Flow - Automatically Learn Flow rates based on real-time usage
- Flow Usage Totalizer
- MV2/P - Additional 2nd booster pump start circuit or normally closed master valve programmable by station

ESP-LXME Upgrade to LXME2 Series

ESP-LXIVM (PRO)

2-Wire Controller with Smart Valve Technology

For more product information, please visit:

rainbird.com/products/esp-lxivm-2-wire-controller-smart-valve-technology

Our most advanced irrigation controller offers fast and error-free installation, world-class diagnostics, and an updated version of the Industry's favorite programming interface.

Advanced flow management tools

Integrated Valve Module (IVM) – Solenoid and decoder are combined, resulting in money and time savings at install

Remote Accessibility - IQ & LNK2 Wi-Fi Module support for Apple IOS (*Android Coming Soon*)

Advanced diagnostics – Stays in constant communication with the controller to provide efficient irrigation, resulting in money, time, & water savings for customers

Simplified user interface – Large backlit display, easy language changes, Info button

ESP-LXIVM/P (Pro)

Key Specifications		
Feature	LX-IVM	LX-IVM Pro
Max Programs	10	40
Stations	60	240
Max Simulstations	8	16 (plus active MV)
Master Valves	5	10
Flow sensors	5	10
Weather sensors	4	8 (including 1 Local)

IVM Valves

Rain Bird's PGA Series valves are now available with the Integrated Valve Module "smart solenoid" (IVM-SOL) preinstalled. Pair any of our new IVM Smart Valves with the ESP-LXIVM Two-Wire controller to eliminate decoders, reduce system cost, and improve reliability today.

Best-in-Class Valves - With industry-leading reliability and performance, the Rain Bird series of commercial valves are now even better with preinstalled IVM-SOL

Next Generation Two-Wire System that is the next leap forward—simplifying installation, improving reliability & enabling more troubleshooting features that save time

Performance and Reliability - With 50% fewer connections, an IVM Smart Valve is already 200% more reliable out of the box versus using a valve and decoder

IVM-SOL - **provides two-way communication** between the valve and controller to provide **advanced diagnostic capability** and **faster response time**

PGA IVM Valves

For more product information please visit:

PGA-IVM: rainbird.com/products/pga-ivm-series

ESP-2WIRE

2-Wire Benefits Without the Hassle

Coming Soon

For more product information, please visit:
rainbird.com/products/esp-2wire

The ESP-2WIRE Controller & 2W-1 Decoder continue Rain Bird's legacy of the best-in-class 2-Wire experience with an approachable platform for projects up to 50 stations.

50-Station capacity standard without the need for expansion modules

Compatible with standard **direct burial irrigation wire** and **standard irrigation wire connectors**

Decoder Auto-Address to detect and assign decoder addresses to stations automatically

Supports up to **two 2-Wire paths**

Diagnostic LEDs on the back plane and on each 2W-1 Decoder for advanced troubleshooting

ESP-9V

Plays Rough. Works Easy.

For more product information, please visit:

rainbird.com/products/esp-9v-series

No AC Power? No problem. The ESP9V Series Battery-Operated Controller combines intuitive programming with a rugged design to ensure you get reliable automatic irrigation control.

Weatherproof – New weatherproof keypad design and secondary moisture-resistant coating

Long Lasting – Get at least two years of battery life when you use two 9-volt alkaline batteries or a minimum of one year with one

Intuitive – Programs easily with a user-friendly interface that lets you choose the start times, watering options, and cycles that work for you.

Advanced Features - One touch manual start, Contractor Default™ save/restore, manually water ALL zones or SINGLE zone on demand

ESP-BAT-BT

Install Anywhere. Program from a Smartphone.

For more product information, please visit:
rainbird.com/products/esp-bat-bt

*Ideal for commercial applications, the ESP-BAT operates reliably for **up to five years** using four AA batteries.*

Bluetooth Connectivity – Up to 30 feet of Bluetooth range when installed in a plastic valve box

Easy to Install – Convenient durable option for providing uninterrupted irrigation while AC-power is not available

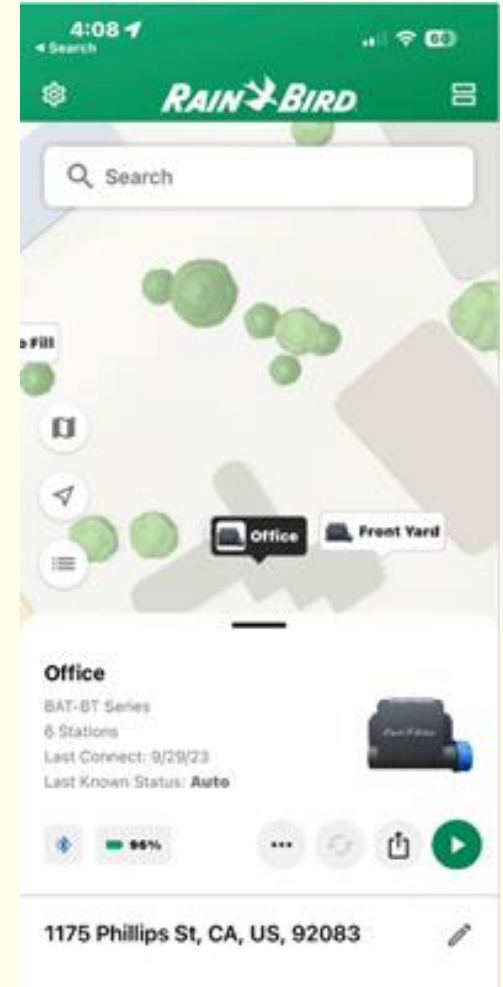

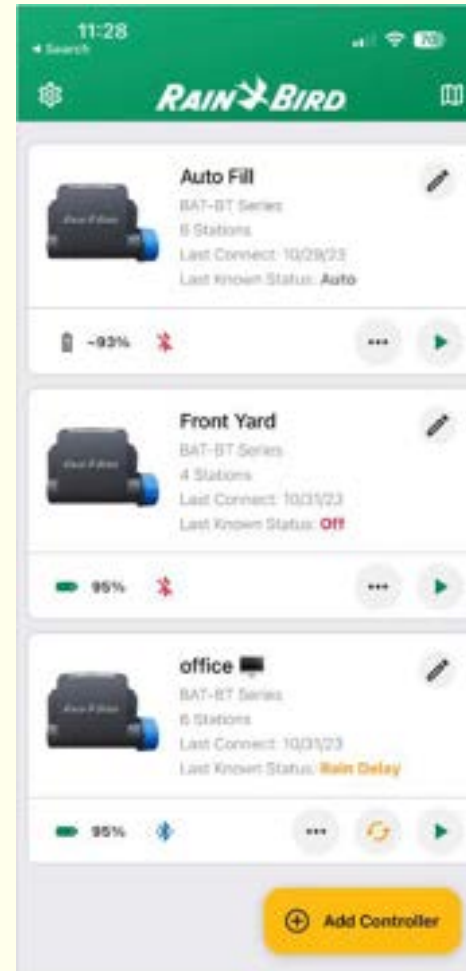

Easy to Program – Intuitive programming using the Rain Bird Smartphone App

Rain Bird App Features - Low battery indicator, custom names for controllers & zones. Off-line mode, and many others

ESP-BAT-BT

Noteworthy App Improvements:

- Offline Mode
- Auto Sync (push programming once within range)
- Improved Mapping
- Monthly Seasonal Adjust
- Calendar Day's Off
- Share Controller with others

HT2

Premium Hose End Controller

COMING SOON

Simple and reliable hose end timer for residential applications. This controller features automatic sophisticated programming flexibility, along with an extra rugged design for worry-free outdoor watering all season

One touch override buttons for “cancel watering” (also acts up to a 96-hour rain delay) and “Water Now” (Manual watering)

Simple-to-set seven-day automatic programming for added watering flexibility of up to six hours of watering per cycle

Schedule watering with **up to four start times per day** enables water to soak on, even on slopes with clay soil

Rugged brass female coupler and threaded brass male outlet to prevent accidental cross threading and for added durability

Intuitive program dial and large LCD screen displays next schedule water cycle and time remaining on current cycle at-a-glance

Remote Management (Central Control)

LNK2

Upgrade to Smart Control

For more product information, please visit:
rainbird.com/products/lnk2-enhanced-control

Smart and Responsible – yards receive only the water it needs while saving up to 50% in water. Simply plug the LNK2 WiFi Module and start managing the irrigation from anywhere, anytime from a mobile device!

Manage watering from anywhere in the world with our **FREE App**

Enjoy healthy and beautiful landscape while lowering their water bill with **automated scheduling; Seasonal Adjust; Rain Delay; Tailored Alerts** and more

Access can be shared for added peace of mind.

Bluetooth provisioning and new components provide **faster connectivity to the controller**

Now also compatible with LXME2 and ESP-LXIVM series controllers! (iOS App only-Android compatibility coming soon)

IQ4 & Communication Cartridges

The IQ4 Platform offers state-of-the-art command and control features in a streamlined use interface. IQ4 provides advanced water management features saving money and time.

Currently compatible with all ESP-LX Series Controllers...

Two different communication options – Cellular and Ethernet

Expandible – Offer secondary communication options

As simple or powerful as the user needs or wants – ET-based scheduling, automated reporting, PIN Code access, etc.

For more product information, please visit:

<https://www.rainbird.com/products/iq4>

IQ4 Recent Enhancements

The IQ4 Platform offers state-of-the-art command and control features in a streamlined user interface. IQ4 provides advanced water management features saving money and time. IQ4 is available at iq4.rainbird.com.

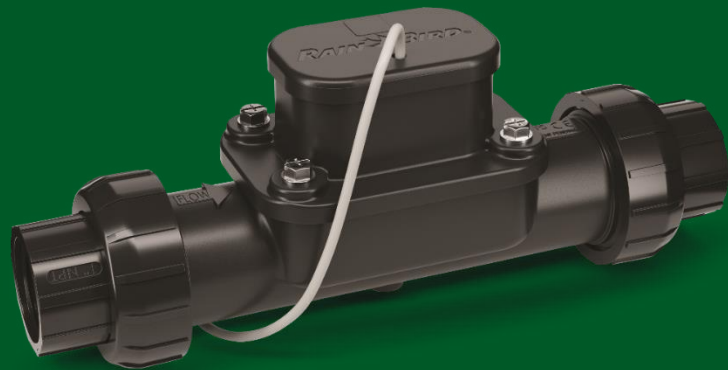

Features Released in 2023

- Dynamic and Interactive Mapping
- Program Column View
- Automatic Firmware Updates
- Snapshot + Restore Data
- User Site Assignments Export
- Rain Delays – Shows Date When Program Will Resume
- Easy to use Station Adjust Percentage
- Advanced (MAD) ET Adjustment
- Individual flow rates on Multi-Flow-Sensor Controllers
- Scheduled Reports available in PDF format
- Customized Login Landing page
- Scheduled Reverse Synchronization

Flow Sensors & Meters

FG100 Flow Sensor

Defend Against Leaks with Flow-Sensing Technology

For more product information, please visit:

<https://www.rainbird.com/products/fg100>

Designed for residential and smaller commercial applications, the FG100 monitors irrigation and instantly identifies when there is a leak or line break so it can be addressed early.

2023 
NEW PRODUCT
CONTEST Winner
Irrigation Association

Landscape Irrigation Category | TIER 1

No Straight-Pipe Requirements

Simple installation with standard 0.8 mm wire – no specialty PE-cable necessary

Instantly **Identify Leaks or Line Breaks** – The FG100 is designed to monitor residential and light commercial irrigation applications

Winter Ready - designed to withstand high-burst pressure blowouts. Does not need to be removed during winter months

Rain Bird App: Pair the FG100 with the ESP-ME3 to check system health from anywhere, and control advanced flow settings via the Rain Bird Mobile App.

UFS Ultrasonic Flow Sensors

Range, Accuracy, and No Straight Pipe Requirements

2022 NEW PRODUCT CONTEST Winner Irrigation Association

For more product information, please visit:
rainbird.com/products/ultrasonic-series-flow-sensors

Rain Bird's Ultrasonic Series Flow Sensors (UFS) represent the best in flow sensing technology for irrigation, sending flow data to central control or stand-alone controller systems for precise and accurate flow monitoring.

No Straight-Pipe Requirements

Wide Flow Ranges

1" = 0.3-50gpm **1.5"** = 0.5-110gpm **2"** = 1.0-200gpm

No moving parts for greater reliability and allowing blowout for winterization with the sensor installed

On-board LED Lights indicating power, full pipe status, relative forward flow rate, and reverse flow

Valve Boxes

VB Series

Professional grade. Excellent value.

For more product information, please visit:

rainbird.com/products/vb-series-valve-boxes

Work faster and easier with a Rain Bird Valve Box. We've created unique knock-outs for easy pipe placement and reduced installation time – so no more tedious cutting.

Strength and Stability - Designed with corrugated sides and wide flange bases for maximum durability, compression strength and stability

Smart Lid Design - No holes to keep out pests, beveled edges to minimize damage from turf equipment, and for easy hand and shovel access

Flexible Installations - Interlocking stacking capabilities, extension models and pipe hole knockouts support deeper and flexible installations

All Rain Bird Valve Box purchases qualify for **valuable Rain Bird Rewards points**
